

BAUSCH + LOMB

ONE *by* **ONE**

RECYCLING PROGRAM

HOW TO PARTICIPATE IN THE ONLY CONTACT LENS RECYCLING PROGRAM IN THE US

HOW DO I SIGN MY PRACTICE UP FOR THE PROGRAM?

Scan or tap this code to fill out the sign-up form and request to join the program for free!

I'M ALL SIGNED UP. NOW WHAT?

Your practice will appear on the ONE by ONE Recycling Center Locator within 30 days. In the meantime, **let your Bausch + Lomb representative know that your practice has joined the program.** They will send you a ONE by ONE Collection Bin and other practice and patient materials. If you haven't received your bin yet, contact your Bausch + Lomb representative or Customer Care at 1-800-553-5340.

HOW DO I PROPERLY COLLECT USED LENS MATERIALS?

Find a convenient, easy-to-spot location in your office for your ONE by ONE Recycling Bin. Have patients place any used contact lenses, empty blister packs, and separated top foils into the bin.

CAN I RECYCLE NON-BAUSCH + LOMB PRODUCTS?

Yes! **The ONE by ONE Program accepts used lens materials from all brands.** So, recycle away!

MY ONE BY ONE RECYCLING BIN IS FULL. NOW WHAT?

Once your collected contact lens waste reaches the blue line inside of your bin, empty all used lens items into a corrugated box. **Corrugated 12 x 12 x 18" boxes are best** and designed to handle the size and weight of the used materials.

WHERE DO I SHIP THE USED CONTACT LENS WASTE?

Print a free ONE by ONE shipping label and adhere it to your corrugated box for shipping. Then, seal and ship the contents via UPS to TerraCycle®.

HOW DO I GET FREE SHIPPING LABELS? AND WHO DO I CONTACT IF I NEED HELP?

Click on your profile in the right-hand corner. Download your shipping label under the "My programs" tab by clicking the "Get shipping label" button. The label will be sent to the email address associated with your account, as well as being available for download under the shipment history for that program.

If you need any assistance, email customersupport@terracycle.com or call 866-967-6766.

WHAT HAPPENS TO THE LENS WASTE ONCE IT'S RECYCLED?

Contributions through the program can be combined with other materials to become playground sets, park benches, and more! **Plus, for every 10-pound collection, TerraCycle® donates \$10 to Optometry Giving Sight**—a global fundraising initiative aiming to solve unnecessary blindness and vision impairment.

BETTER TAKES EVERYONE.

Thanks for doing your part to help protect the planet. Now, share with colleagues across the nation to encourage a brighter future. If you're still curious about the program, **learn more at [BauschRecycles.com](https://www.BauschRecycles.com)!**
